

## **EZReader 15 Application**

The 15 game is a replica of a wooden puzzle from years ago.

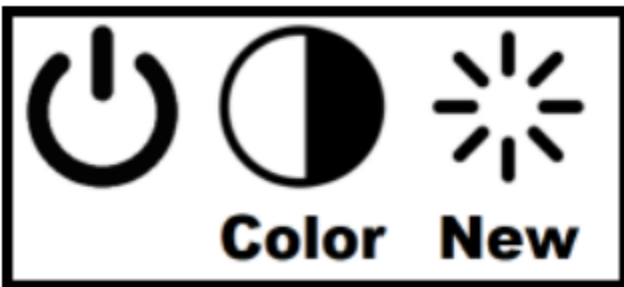

The board has 16 locations – 1 empty and the rest filled with the numbers 1 through 15. The object is to move the numbered tiles so that the tiles are in numerical order, starting with the #1 in the upper left position and #15 in the lower right row.

To move a tile, just click on a tile adjacent to the empty slot. The selected tile will move to the empty slot and its previous position will now be empty.

Numbered tiles can only be moved into an adjacent empty location. Take your time. There is no time limit on solving the puzzle.

**Toolbar Commands:** 15 has a single row of command icons:

**Color:** Text/background color

**New:** Start a new game

**Keyboard Shortcuts:**

Right-click on the Exit button to see a list of available shortcuts for this application.
