

EZReader Calendar APPLICATION

Introduction:

Calendar displays any month and allows users to enter appointments for any day.

The Calendar app displays a monthly calendars, a 4-month calendar, appointments and a variety of clock screens.

On the monthly calendar, the current date is highlighted with a thick border.

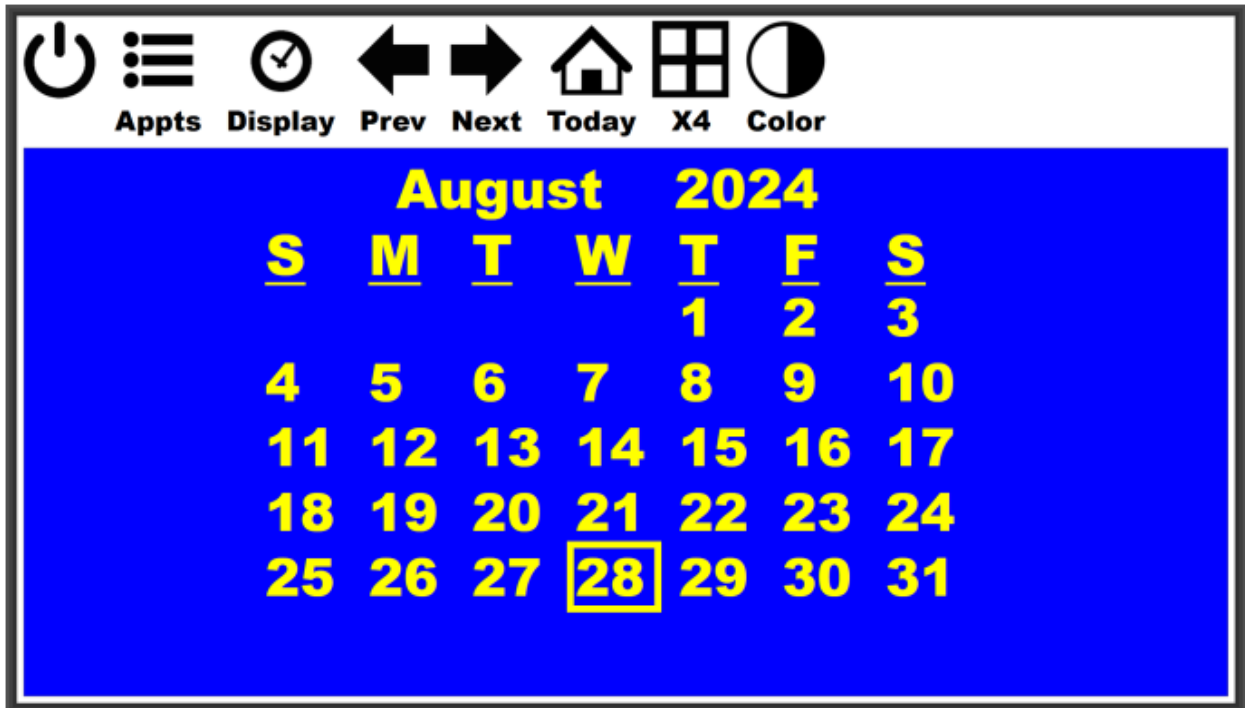

To enter appointments, click on a date to open the appointment editor. There is no required format for content placed in the appointment editor. Once the appointment information is entered, you must press Save before leaving the appointment editor.

Once a day has appointments, that calendar date is highlighted within a thin border.

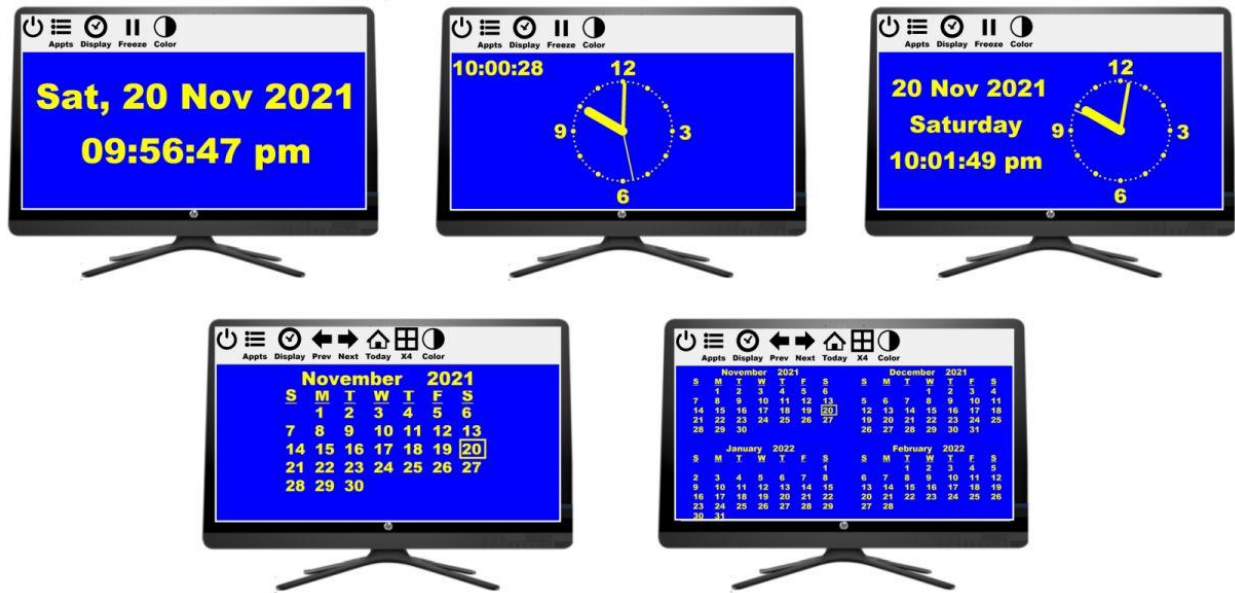

A list of all days which have appointments can be displayed.

From the list of days that have appointments, double-click on a date to open the appointment editor. Alternately, click on a date and press the Edit Appointment icon.

On startup, the main screen of EZReader can optionally present a notification that there are appointments on the current day. The alert is not available when a navigation graphic is displayed on the main screen.

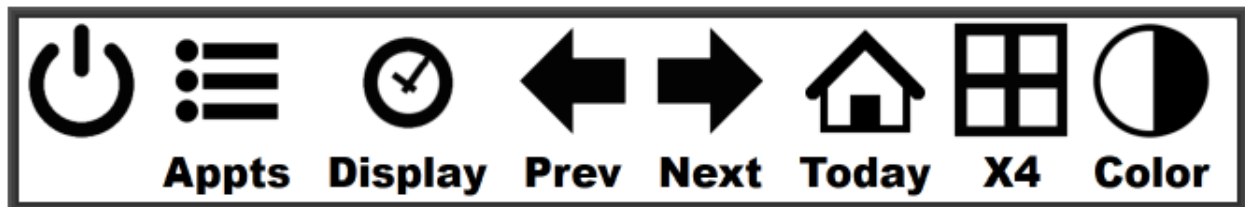

In addition to the calendar view, the main screen be be used to display time or multiple calendars on one screen, as shown here:
