

EZReader Camera Binary Application

Camera Binary converts the Camera video to two-color (binary) mode. The resulting high contrast output can be easier for low vision users to see.

Toolbar Commands:

Camera Binary has two rows of command icons:

Hide: Hide the Toolbar

Color: Cycle through 4 available color pairs

Larger: Increase font size

Smaller: Decrease font size

100%: No Zoom

Freeze: Pause the video

Copy: Copy the video frame to the clipboard

Print: Print the video frame

Print2: Print the video frame, spread out over 2 pages

Snap: Save a snapshot of the current video frame

FG: Add more FG color to the display

BG: Add more BG color to the display

Reset: Set FG/BG to default levels
