

EZReader World Clock Application

World Clock displays the time for selected cities, from a list of about 200 cities.

Toolbar Commands:

World Clock has 3 rows of command icons:

When the list of bookmarked cities is selected, this is the first row of command:

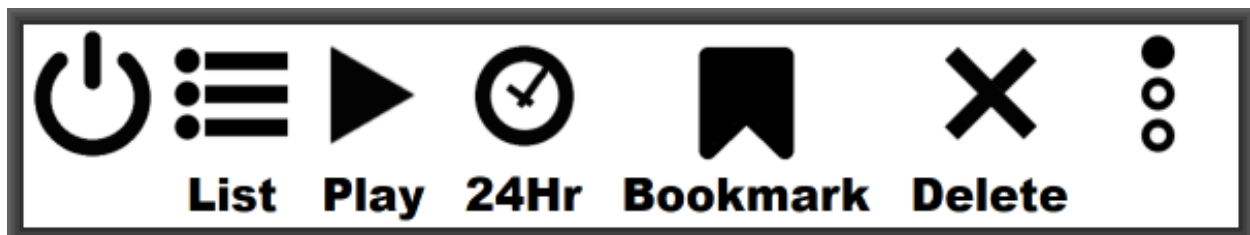

List: Show a list of cities whose times will be displayed

Play: Starting at cursor, play text until stopped

24Hr: Show time in 24-hour format

Remove: Remove the selected city from the list

However, when the list of available locations is shown, the first row of commands looks like this:

List: Toggle between bookmarked cities and all cities

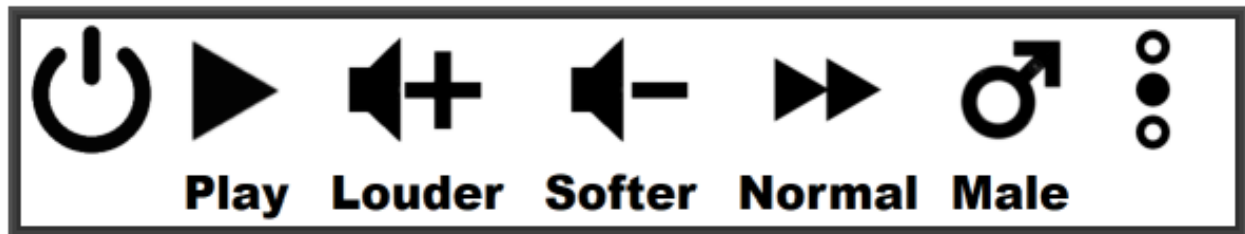

Play: Starting at cursor, play text until stopped

24Hr: Show time in 24-hour format

Bookmark: Add the selected city to the display list

Delete: Delete the selected city from the list

Rows 2 and 3 are always as follows:

Play: Starting at cursor, play text until stopped

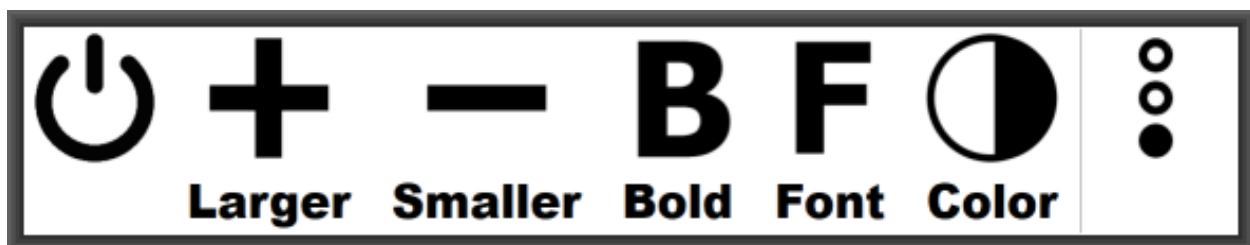

Louder: Increase volume

Softer: Decrease volume

Normal: Change speaking speed

Male: Toggle between male and female voice

,

Larger: Increase font size

Smaller: Decrease font size

Bold: Toggle text bold attribute

Font: Cycle through 3 available fonts

Color: Cycle through 4 available color pairs
